

Sew Hooked on Treasures

Shereece Nicole

My quilting and crocheting journey began in 2010 out of boredom. I was living in a new, small town and I was looking to meet new people. Thanks to a local program, I started to learn to crochet. Then I was reintroduced to quilting (the "correct" way). My travels and everyday life began to inspire patterns I wanted to create. Now, I'm designing those patterns and teaching my favorite skills I've learned along the way.
